SIGNIFICATION DES SYMBOLES

AGRICULTURE BIOLOGIQUE

L'agriculture biologique est une façon naturelle de produire du vin en respectant la terre et les animaux, et en évitant les méthodes potentiellement dommageables pour l'environnement et la santé humaine. Cette démarche oblige dorénavant à n'ajouter aucun traitement synthétique et d'insecticide dans les vignes et, depuis peu, propose à réduire (très légèrement) les intrants lors de la vinification.

AGRICULTURE BIODYNAMIQUE

La biodynamie considère que la plante, le sol et la terre sont un écosystème, dont il s'agit d'assurer l'équilibre. Elle se traduit dans des pratiques qui tendent à abolir tout intrant de synthèse, à apporter des soins favorisant la qualité de la terre et l'enracinement de la vigne, à travers notamment l'utilisation de préparations biodynamiques, le travail du sol souvent au cheval et l'application de calendriers solaire et lunaire.

AGRICULTURE RAISONNÉE

L'agriculture raisonnée cherche à trouver un équilibre entre les objectifs de productivité de l'agriculture moderne conventionnelle et les contraintes d'une agriculture respectueuse de l'environnement. L'agriculture raisonnée tend par là à se rapprocher de l'agriculture biologique sans toutefois en adopter toutes les contraintes et donc sans pouvoir en revendiquer le sigle ou le nom.
